Actions may include: reweighing product to determine gross weights, inspection of the product, computations on density or other such actions necessary to properly establish facts regarding the shipment characteristics.

When an inspection by carrier results in a reclassification of the contents of the shipment and the change results in an additional net freight charge of 10% of revenue or more, a charge of:

\$16.00 per shipment

will be applied.

The charge shall be the responsibility of the party responsible for paying the freight charges and shall be in addition to all other applicable charges.

The charge will not apply if the minimum weight or minimum charge in any of the following rules is used to determine final charges:

Carrier reserves the right to verify shipment weight and make adjustments as necessary by use of electronic portable scales. Carrier verifies that such scales are "for trade" and meet all local and state laws regarding accurate weight within 1% tolerance of actual weight.
